Chris just sent an email saying it would be cleaner if we do it here, but the problem is I don't have normal access to your account strings. I have to get Cincinnati to override it.

Thanks Greg

I will forward those names to our travel person in the region. Are they going to set up their TAs or do you need us to do it?

9471121

Folks going from RERT - Las Vegas:

Gregg Dempsey
Wesley Boyd
Roger Goodman
Gary Spradlin
Douglas Sharp
Lyndsey Kelly
Natalia Brooks
Fernando Gomez

Gomez is in Vermont on EPA business and will join us on Wednesday night.

We're bringing 4 fed vehicles: our Mobile Command Post, a large "box" delivery style truck (equipment), a Ford Escape hybrid, and a Chevrolet pickup. We might need to rent or use something you all bring for field team vehicles, but we'll see.

If you can get that analytical lab set up through your Weston contractor, great, otherwise, we're able to handle filter samples at our National Air and Radiation Environmental Laboratory (NAREL) in Montgomery, AL. The analyses I'd recommend are gross alpha, gamma spectroscopy, and specific plutonium (plutonium takes several days).

More as I get it.
